

## Job Reference : C# Software Developer

As a company i-dash ltd was formed in 2001, and from the start, we have been providing our clients with an intelligent Partner for all their technical matters. To achieve and maintain this we have active partnerships with Microsoft (Certified Partner), SAGE Partner, SpliceCom (Accreted reseller), Dell (Direct Partner) HP (Registered Partner). The company is now developing at a rapid rate in the Pharmaceutical and Aerospace fields, creating an opportunity for additional Software Developers with .NET C# skills to join the team. As a Microsoft Partner the company provides a wealth of cutting edge software development tools. You will be working with Visual Studio 2010 on the .NET 4.0 framework.

You will be involved in all areas of the Software development life cycle, from designing and building bespoke software to testing and deployment. Therefore knowledge of all these areas is necessary to fulfil the role.

The role requires proven software development experience, with a Computing related degree having obtaining or a predicted grade of 2.1 or above.

At the minimum you must have knowledge and experience in the following:

- C#
- Web Development, ASP.NET, (X)HTML, AJAX, CSS, JavaScript
- SQL Server 2008
- UML/Design Methodologies
- Visual Studio 2008/2010
- Working to requirements/Working with Clients

To apply for this role please submit your CV along with a covering letter to [enquiries@i-dash.co.uk](mailto:enquiries@i-dash.co.uk).
